PROFESSIONAL SUMMARY

Fresh Graduate in Informatics Engineering (GPA 3.78/4.00, Cum Laude) with hands-on Quality Assurance skills from an intensive Alkademi bootcamp, covering manual testing, end-to-end automation with Cypress and Playwright, and performance testing with K6. Experienced in designing test cases, executing manual and automated test suites (Page Object Model), reporting defects, and running load/stress/spike tests to evaluate application reliability. Complemented by exposure to SIT and UAT phases during an IT project management internship at PT Pegadaian, and a technical background in web development (JavaScript, React) that supports clear collaboration with development teams.

TECHNICAL SKILLS & TOOLS

- **Quality Assurance & Testing:** Manual testing, Cypress (E2E automation), Playwright (E2E automation), K6 (performance / load testing), SIT & UAT coordination
- **Project Management & Collaboration:** Agile/Scrum (sprint planning, user story definition), timeline & milestone planning, meeting documentation (MoM), risk & action-item tracking, stakeholder coordination; Trello, Google Workspace, Git
- **Technical Literacy:** JavaScript, React, Go, FastAPI, HTML/CSS, PHP; understanding of databases and API integrations
- **Cloud & AI:** Microsoft Azure AI (AI-900, AI-102), Power Platform (PL-900), Alibaba Cloud
- **Other Tools:** Microsoft Office (Word, certified), CorelDRAW
- **Languages:** Indonesian (native), English (proficient)

PROFESSIONAL EXPERIENCE & TRAINING

Quality Assurance Bootcamp Participant | Alkademi *July 2026 – September 2026*

- Completed an intensive 3-month Quality Assurance program covering the full testing workflow: manual testing, test automation, and performance testing.
- **Manual Testing:** designed and executed 20 manual test cases across login, dashboard, cart, checkout, and menu flows for a demo e-commerce app, documenting preconditions, steps, expected vs. actual results, and severity; identified 1 confirmed UI defect (incorrect product images for a specific account).
- **Automation Testing (Cypress & Playwright):** converted the manual test suite into 13 automated end-to-end test scripts in both Cypress and Playwright (System + E2E scenarios: login, product sorting, cart, checkout); implemented the Playwright suite using the Page Object Model (POM) for maintainability, and relied on built-in auto-waiting/retry assertions instead of static waits.
- **Performance Testing (K6):** ran Load (100 VU), Stress (500 VU), and Spike (500 VU instant) tests against a public API; found the API met all thresholds under normal load (p95 185ms, 0% errors) but degraded under stress and spike conditions (error rate up to 12.3%, p95 up to 2,150ms), and authored a report with root-cause analysis and remediation recommendations (rate limiting, autoscaling, caching).

Portfolio: Cypress suite Playwright suite K6 performance report

IT Project Management Intern | PT Pegadaian, Jakarta, Indonesia *January 2026 – June 2026*

- Monitored project progress and tracked milestones for strategic initiatives including REST Core, e-Rumah Dinas, MCE/MTE Enhancement, AWS Deployment, and SIT Testing.
- Structured the end-to-end delivery timeline of the Monev application project across Inception, UI/UX Design, Development, SIT, UAT, Deployment, and Transition, gaining hands-on exposure to how testing fits into the software delivery lifecycle.
- Applied Scrum to the Monev project: defined 5 core user stories with stakeholders and coordinated 35 stakeholders (20 IT, 10 vendor, 5 business) across 6 Scrum sprints.
- Organized and managed 50+ Minutes of Meeting (MoM) for IT projects, ensuring decisions, risks, and action items were fully documented.
- Coordinated communication between IT teams, vendors, and business stakeholders to ensure timely completion of action items.

Virtual Reality Intern | Laboratorium Virtual Reality, Jakarta Barat *August 2024 – November 2024*

- Developed a website for a virtual reality lab using the Multimedia Development Lifecycle methodology (HTML, CSS, JavaScript, Bootstrap, PHP), improving information accessibility and user interaction with VR technology.
- Created a virtual tour project that received a 90% positive evaluation from the internship supervisor, completing all tasks within a two-month timeframe.

PROJECTS

Team Leader | Kickstarter Project Success Analysis (Capstone) | Kampus Merdeka x RevoU *Team of 9*

- Led a 9-member cross-functional team through a full data analysis lifecycle: problem definition, data cleaning, analysis, visualization, and recommendation delivery.
- Defined the objective of raising the Kickstarter project success rate in Canada from 28% to 30%, using 2009–2017 data (14,752 projects, 1.2M+ backers).
- Directed the team in building an interactive dashboard and delivered the key recommendation that the Comics category offered the highest and most stable success rate (56%).

EDUCATION

Bachelor of Informatics Engineering | Institut Teknologi PLN (IT-PLN), Jakarta Barat *Sept 2021 – Sept 2025*

GPA: 3.78/4.00 (Cum Laude)

- Led more than five study groups since Semester 1, achieving top performance in collaboration, communication, and critical thinking.
- Conducted a networking research project involving expert interviews at PT Inet Media.
- Earned MikroTik Certified Network Associate (MTCNA) and Microsoft Office Word 2019 certifications during study.

CERTIFICATIONS

- Microsoft Certified: Azure AI Engineer Associate – AI-102, Designing and Implementing a Microsoft Azure AI Solution (2025) – Score 854
- Microsoft Certified: AI-900 – Microsoft Azure AI Fundamentals (2025) – Score 931
- Microsoft Certified: PL-900 – Power Platform Fundamentals (2025) – Score 892
- BNSP Certificate of Competence: Junior Web Developer (2025)
- MikroTik Certified Network Associate – MTCNA (2025)
- Alibaba Cloud Engineering Associate Competency Exam (2025) – Score 78
- RevoU CendekiAwan – AWS Cloud Data Engineer and Gen AI Track, Final Grade 98/100 (A) (2024)
- Capstone Project with People Of Happiness – RevoU Corporate Training, Final Grade A, Overall Score 90 (2026)

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Leader | Youth Generation Program (Online) *Nov 2023 – June 2024*

- Led a cohort of approximately 35 participants, achieving a 95% success rate in helping participants obtain scholarships to state universities.
- Grew the program's Instagram account to 7,000 followers within eight months through engaging, informative content.
- Recognized by program mentors as the best-performing cohort for performance and dedication.

ACHIEVEMENTS

- Selected as one of the Top 24 Digital Talents by Indonesia Next 9th, advancing from a national pool of 9,962 participants (2025), and developed the Kalumina project.
