PROFESSIONAL SUMMARY

Freshgraduate Informatics Engineering (GPA 3.78/4.00) with hands-on experience in IT project management, Agile/Scrum delivery, and cross-functional team coordination. Experienced in managing project documentation, timelines, and stakeholder communication across IT, vendor, and business teams, with a strong technical background that enables close collaboration with engineering teams. Certified in Microsoft AI-900, AI-102, and Microsoft Office Specialist Word 2019. Seeking to contribute to roles in IT Project Management, Digital Transformation, or AI/Data initiatives.

TECHNICAL SKILLS & TOOLS

- Project Management: Agile/Scrum (sprint planning, user story definition), timeline & milestone planning, meeting documentation (MoM), risk & action-item tracking, stakeholder coordination
- Collaboration Tools: Trello, Google Workspace, Discord, WhatsApp; Git for version control coordination
- Technical Literacy: Understanding of web/application development (Go, JavaScript, React, FastAPI), databases, and API integrations — enables effective coordination with engineering teams
- Cloud & AI: Microsoft Azure AI (AI-900, AI-102), Power Platform (PL-900), Alibaba Cloud
- Tools: Microsoft Office (Word, certified), CorelDRAW
- Languages: Indonesian (native), English (proficient)

WORK EXPERIENCE

IT Project Management Intern | PT Pegadaian, Jakarta, Indonesia

January 2026 – June 2026

- Organized and managed over 50 Minutes of Meeting (MoM) for IT projects, ensuring decisions, risks, and action items were fully documented.
- Monitored project progress and tracked milestones for strategic initiatives including REST Core, e-Rumah Dinas, MCE/MTE Enhancement, AWS Deployment, and SIT Testing.
- Coordinated communication between IT teams, vendors, and business stakeholders to ensure timely completion of action items.
- Applied Scrum methodology to plan and manage the Monev (work-tool input monitoring) application project: defined 5 core user stories with stakeholders and structured the end-to-end delivery timeline across Inception, UI/UX Design, Development, SIT, UAT, Deployment, and Transition phases, coordinating across 35 stakeholders (20 IT, 10 vendor, 5 business) through 6 Scrum sprints and achieving 50% on-time sprint completion.

Virtual Reality Intern | Laboratorium Virtual Reality, Jakarta Barat

August 2024 – November 2024

- Developed a website for a virtual reality lab using the Multimedia Development Lifecycle methodology, improving information accessibility and user interaction with VR technology, using HTML, CSS, JavaScript, Bootstrap, and PHP.
- Created a virtual tour project that received a 90% positive evaluation from the internship supervisor, completing all tasks within a two-month timeframe.

TECHNICAL PROJECTS & PORTFOLIO

Team Leader — Kickstarter Project Success Analysis (Capstone Project) | Kampus Merdeka x RevoU

Team of 9 members

- Led a 9-member cross-functional team (data analytics, data cleaning, visualization, and communication) through a full data analysis lifecycle: problem definition, data cleaning, analysis, visualization, and insight/recommendation delivery.
- Defined the business problem and objective: identifying strategies to raise Kickstarter project success rate in Canada from 28% to 30%, using 2009–2017 project data (14,752 projects, 1.2M+ backers).
- Directed the team in building an interactive dashboard and analysis covering success rate, backers, and goal/pledged trends by category, translating findings into actionable business recommendations.
- Delivered key recommendation that the Comics category offered the highest and most stable success rate (56%), guiding the final go-to-category recommendation for the business case.

Team Member — Debian E-Commerce Platform (Final Project) | Lumoshive Golang Bootcamp Batch 3
Team of 3

- Collaborated within a 3-member team to plan, build, and deliver a full-featured e-commerce platform end-to-end, coordinating task division, timelines, and technical decisions with teammates via structured Git workflow and regular sync meetings.
- Contributed to system planning covering security, database performance, and third-party service integration (location, shipping, and cloud storage APIs), ensuring the project met functional requirements within the bootcamp timeline.

Team Member (Front-End & Back-End) — SiLa Sign Language Recognition App | DBS Coding Camp 2025 x Dicoding (Team CC25-CF114)
Team of 6

- Collaborated in a 6-member cross-functional team (machine learning and full-stack development) to plan and deliver a real-time sign language recognition web app from concept to public deployment within the program timeline.
- Coordinated integration work between the front-end team and the machine-learning team to ensure the AI model's output was correctly reflected in the user-facing application.

EDUCATION

Bachelor of Informatics Engineering | Institut Teknologi Perusahaan Listrik Negara (IT-PLN), Jakarta Barat
September 2021 – September 2025 | GPA: 3.78/4.00 (Cum Laude)

- Led more than five study groups since Semester 1, achieving top performance in collaboration, communication, and critical thinking.
- Conducted a networking research project involving expert interviews at PT Inet Media, strengthening technical and analytical skills in computer networking.
- Earned MikroTik Certified Network Associate (MTCNA) and Microsoft Office Word 2019 certifications during study.

CERTIFICATIONS

- Microsoft Certified: Azure AI Engineer Associate (2025)
- Microsoft Certified: AI-102 – Designing and Implementing a Microsoft Azure AI Solution (2025) – Score 854
- Microsoft Certified: AI-900 – Microsoft Azure AI Fundamentals (2025) – Score 931
- Microsoft Certified: PL-900 – Power Platform Fundamentals (2025) – Score 892
- Alibaba Cloud Engineering Associate Competency Exam (2025) – Score 78
- BNSP Certificate of Competence: Junior Web Developer (2025)
- MikroTik Certified Network Associate – MTCNA (2025)
- RevoU CendekiAwan – AWS Cloud Data Engineer and Gen AI Track, Final Grade 98/100 (A) (2024)
- Capstone Project with People Of Happiness – RevoU Corporate Training, Final Grade A, Overall Score 90 (2026)

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Leader | Youth Generation Program (Online)
November 2023 – June 2024

- Led a cohort of approximately 35 participants, achieving a 95% success rate in helping participants obtain scholarships to state universities.
- Grew the program's Instagram account to 7,000 followers within eight months through engaging, informative content.
- Recognized by program mentors as the best-performing cohort for performance and dedication.

ACHIEVEMENTS

- Selected as one of the Top 24 Digital Talents by Indonesia Next 9th in a national-scale selection process, advancing from an initial pool of 9,962 participants (2025) and made project Kalumina.
